U.S. Supreme Court Upholds Independent Legislative Redistricting

Wednesday, April 20, 2016 -

Today, the United States Supreme Court unanimously held that Arizona's state legislative districts are constitutional.

The Commission is pleased with the Court's decision and is gratified that Arizonans will continue using the districting plans created by the Arizona Independent Redistricting Commission in Arizona legislative elections through 2020. The Commission is grateful for the pro bono representation it received from Paul Smith and his team at the law firm Jenner Block.
